About Novan

Novan, Inc. is a late clinical-stage biotechnology company focused on leveraging its proprietary nitric oxide (NO) based technology platform, NITRICIL™ to generate macromolecular New Chemical Entities (NCEs) to treat multiple indications in dermatology, men's and women's health, infectious diseases, and various other medical conditions with significant unmet needs. The Company's lead product candidate is SB206, a topical gel with antiviral properties, for the treatment of molluscum. The Company believes that SB206 as a topical, at-home, caregiver-applied therapy with a rapid treatment benefit, if approved, would address an important unmet medical need for the treatment of molluscum.
